

SUMMER PROGRAM

June 7 ~ Aug 6, 2021

Genius Academy is excited to present our summer class offerings! All of our courses are built around our thoughtful curriculum and taught by our caring, experienced faculty. Due to COVID-19, we have made some changes in the interest of safety and accessibility. In order to **limit the influx** of different students, we have divided our summer schedule into **3 sessions, each session lasting 3 weeks**. While we are aiming to return to **in-person** classes, we are also offering online options for each of our sessions. **In-person classes** are held in our largest classrooms, and we will **enforce strict safety measures**. Group projects will be kept to small sizes, and students are required to wear masks and keep their social distance at all times. Additionally, they must regularly sanitize their hands before and after hands-on activities. With exceptions, our classes are **organized by age group and are 3 hours long**, with breaks and snacks included.
