

# Kitty Long

## Director of Operations

Hello, my name is Kitty Long and I am currently the Director of Operations at Genius Academy. I had worked at Genius Academy for 14 years from 2000 as the Head of Math Department until I returned to Taiwan in 2014 because of family issues. I was responsible for planning the mathematics curriculum and creating our Math Placement workshop to help our students enter the appropriate Math track in middle school. I am proud that the majority of our students were able to enter the advanced class. Because of my love of children, I continued to work in the education field after I left Genius Academy. I taught English to Kindergarten and 1st graders at Kid Castle English School in Taiwan and became a manager there during the last 5 years. Genius Academy is just like my second family. I am so happy to have the opportunity to come back here again and work with such an excellent team.

I am excited to work together with you to help your children become highly motivated and self-sustaining, so that they can succeed in whatever passions that they may have in the future.
