

Neha Kapoor

Teacher

My name is Neha. I am a Math and English Reading Teacher in Genius Academy. I have recently moved to the Bay Area from Taiwan. I taught kindergarten and elementary students for over 6 years in Taiwan. I did my Masters in Business and hold International TESOL/ TEFL recognized by TESOL Canada. I always believe that you can achieve anything, if you are ready to work hard for that and there are no shortcuts to success. And I always tell my students the same that “Hard work is the key to success”.

I am a mother of a 9-year-old and can easily understand the needs and behaviour of this age group. I teach my students to be diligent in their studies, sincere in their interaction, passionate about serving others and appreciate the beauty in life. My hobbies are playing chess and bowling. I am passionate about “Yoga”. Every morning I do yoga for at least an hour.

I started my teaching career in Taiwan. In 2015, I started teaching in “Joy English”. After teaching there for more than 4 years, I joined “Lih-jen International School” and then I worked with “Taipei Private Zhongshan Elementary School”. I stayed in Taiwan for over 10 years. I always try to make my classes more fun and interactive. I encourage my students to try new things, don’t be scared of failures and the most important one is, “Never give up.”
